

Former and Veteran Tiers

News: The announcement that TI is ending advanced process development is the end of a great chapter of engineering history. Many talented people will now be moving on, so I hope this list may help you keep track of former colleagues.

I was fortunate enough to work with a bunch of star technologists at TI, and I like to keep in touch with the people I've worked with. As time goes by this has gotten tougher, so I'm keeping a networking page here to help us all keep in touch with each other.

Addresses are hidden, but I'm happy to forward emails.

(The fourth column shows whether I know someone's email address.)

Send additions or updates to groover@technopatents.com.
